## Design Upgrade

### MALIBU TWO-PIECE TOILET

#### NOW FEATURING RIMLESS BOWL DESIGN

Valued Customers,

Icera is rolling out a design change to all configurations of the Malibu 2PC toilet (model #s 6325.128.xx bowl, 6325.110.xx bowl, 6325.028.xx single-flush tank, 6325.228.xx dual-flush tank). **All units currently on the water and all future production will feature a Rimless bowl design.**

Both bowl and tanks have been assigned new SKUs. The tanks remain the same in style and functionality and are interchangeable with the older style bowls. The new tanks can be paired with an old bowl (and vice versa) if you find yourself in need of a replacement for only one portion of a previously installed toilet.

An updated price list is available for download on our website. Please visit the 2021 Pricing & Programs section of [Retailer Resources](#) on icerabath.com. Please note that only the model numbers and corresponding UPC barcode numbers are changed on the price list. The actual list prices for the upgraded models are unchanged from their previous counterparts.

#### WHAT IS A RIMLESS BOWL?

Traditional toilet bowls have small jet holes under the rim where water is released to flow into the bowl when the toilet is flushed. These jet holes can be difficult to clean thoroughly – especially in areas where hard water is a problem. Our Rimless Bowl design eliminates bacteria and mineral build-up with a completely open bowl rim. When the toilet is flushed, two large jets at the back of the bowl release a significant volume of water into the bowl for maximum bowl cleaning.

Paired with Icera's antimicrobial MicroGlaze™ stain-resistant finish, the Rimless Bowl design offers the ultimate in hygiene and makes cleaning a breeze.
