## Design Upgrade

### CADENCE TWO-PIECE TOILET

#### NOW FEATURING RIMLESS BOWL DESIGN

Valued Customers,

Icera is rolling out a design change to the Cadence 2PC toilet bowl (model # C-3170-II.01). **All units currently on the water and all future production will feature a Rimless bowl design.**

The bowl has been assigned new model # C-3170.01. It is compatible with both the T-3170-F.01 and T-3175.01 tanks. There will be no change in model number for the tanks.

**All back-orders and new orders for model # C-3170-II.01 will be fulfilled with the new Rimless model.**

#### C-3170.01 bowl

\$411 list (valid through 9/10/21)

UPC: 847637011005

Replaces model # C-3170-II.01

The new model is included in the updated price list (effective 9/10/21 5PM PST) available for download on our website. Please visit the Programs & Pricing section of [Retailer Resources](#) on [www.icerabath.com](http://www.icerabath.com) to download the latest files.

#### WHAT IS A RIMLESS BOWL?

Traditional toilet bowls have small jet holes under the rim where water is released to flow into the bowl when the toilet is flushed. These jet holes can be difficult to clean thoroughly – especially in areas

where hard water is a problem. Our Rimless Bowl design eliminates bacteria and mineral build-up with a completely open bowl rim. When the toilet is flushed, two large jets at the back of the bowl release a significant volume of water into the bowl for maximum bowl cleaning.

Paired with Icera's antimicrobial MicroGlaze™ stain-resistant finish, the Rimless Bowl design offers the ultimate in hygiene and makes cleaning a breeze.

We are happy to provide updated displays at no charge. Please reach out to [sales@icerausa.com](mailto:sales@icerausa.com) if you have any questions on how to order. And please feel free to contact us with any other questions or concerns.

Thank you,

The Icera Team | [sales@icerausa.com](mailto:sales@icerausa.com) | 855-44-ICERA
