ABOUT US

Our mission is to improve quality of life through luxury bathroom design, with practical performance and ecological efficiency. Founded in Southern California in 1987, we pioneered decorative bath fixtures in coordinated suites with the St. Thomas Creations brand, followed with contemporary and transitional designs under our Icera brand in 2010. We have continuously embraced innovation in design and technology to deliver industry-leading performance toilet fixtures, with matching vanities and suites for a complete, unified bathroom experience.

Today, Icera products are widely recognized and consumer-tested. Icera has been awarded the CONSUMER REPORTS® "Top Toilet" pick for performance, design and value and been recognized by Products Mag for its top value fixtures.

Icera ceramic products are "designed for life", and we stand behind our ceramic products with limited Lifetime Warranty. We continue to innovate and deliver new technology for a continuously improving bathroom experience.

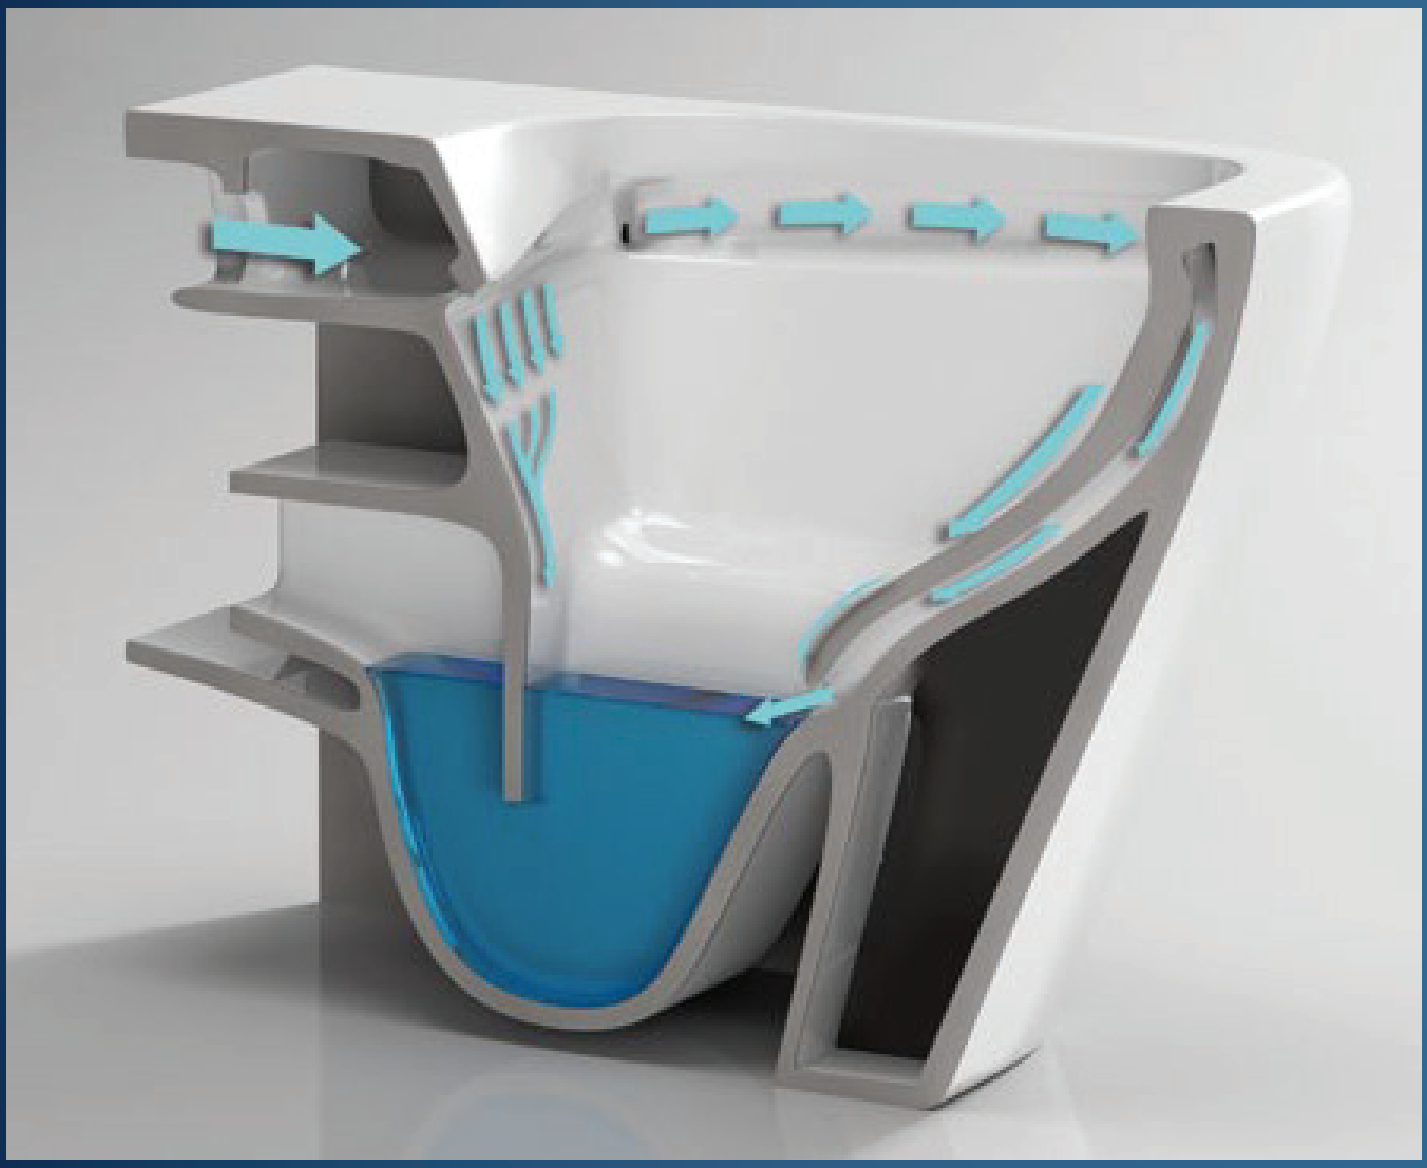

FOCUS ON ECOLOGY

During the 1990's, with increasing awareness of environmental threats and the growing shortage of water supply in California and nationwide, we at Icera embraced technological innovation to develop toilets that could use little water, yet still deliver high-performance flushing. Toilet flushing comprises about 1/3 of all household water consumption, making it an important area for conservation.

EPA WaterSense PARTNER

In 2005, we introduced the Quattro flushing system, which could flush 1.28 gpf while the industry average was still 3.5 gallons per flush or higher. We are proud to be one of the earliest partners with the EPA WaterSense program.

WATER
CLOSETS

RIMLESS FLUSH SYSTEM

Select Icera models feature the Rimless Flush system. Large twin jets and an open rim enable significant volume of water to fall directly into the bowl, maximizing washing force. The open rim makes for much easier cleaning, compared to conventional toilet bowls with holes around the rim – no more stains building up around and inside the rim. Especially useful in hard-water environments.

Look for the symbol next to models featuring the Rimless Flush.

SILENT CLOSE SEATS

QUIET, SILENT CLOSE LIDS

Whether replacing a toilet seat or an entirely new toilet, you'll want to be sure you have the latest in seat technology. All Icera toilets come equipped with Silent Close seats, eliminating noisy seat slamming once and for all.

QUICK-RELEASE SEAT HINGES

For even greater convenience, all Icera seats come with a Quick-Release mounting. With the touch of a button, the seat comes off for easy cleaning of the bowl deck.

DESIGNER HARDWARE

Designer toilet deserve designer accessories. Icera offers tank levers in a variety of metal finishes that are solidly constructed and specially designed to fit any bathroom environment.

IWASH™

THE NEXT LEVEL OF COMFORT

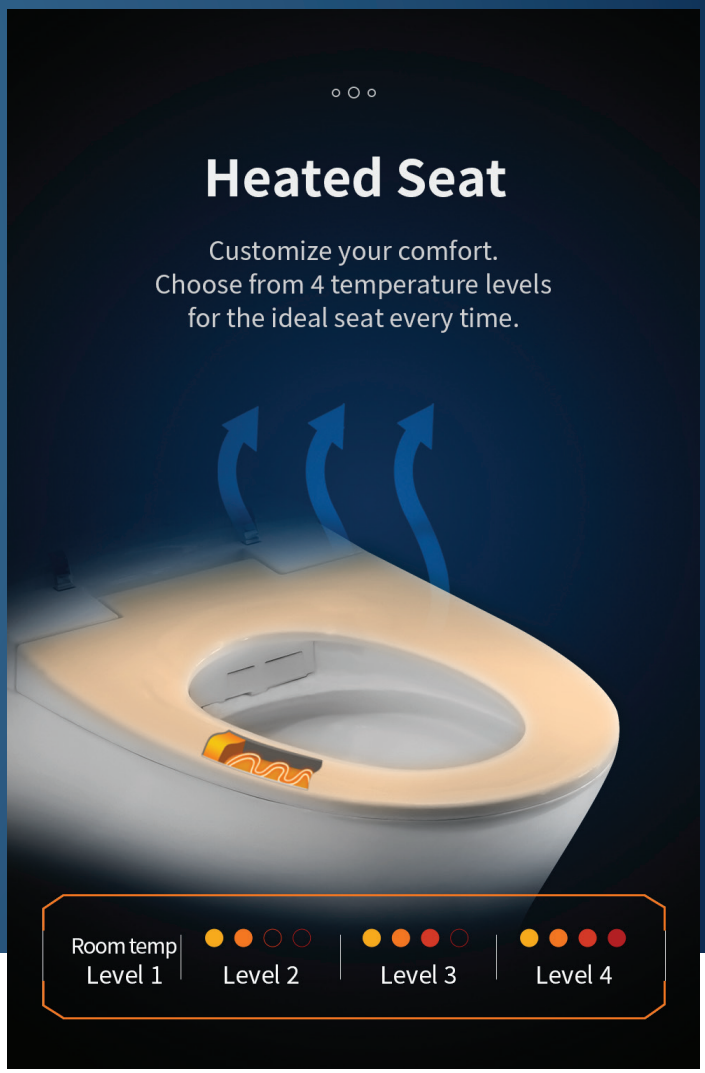

As you approach, the smart sensor system detects your presence and opens the lid & seat without you having to lift a finger. This hands-free operation ensures a germ-free environment, making your bathroom cleaner and safer for the whole family. When you're done, the smart sensor system activates a powerful – no hands necessary!

Our Rimless bowl design ensures a superior, more hygienic flush while reducing water usage. Icera tankless toilets provide a powerful siphonic flush that prevents clogging for a worry-free bathroom experience.

Choose from different bidet spray options for the ultimate in comfort and hygiene. Icera iWash bidet toilets feature rear, front, oscillating and power options.

Experience new levels of comfort with an adjustable temperature heated seat, transforming every bathroom visit into a moment of indulgence. With the power to tailor the heat to your ideal temperature, our heated seat ensures your comfort is never compromised, no matter the season.

MICROGLAZE™ SINKS

Icera's MicroGlaze is an innovative development to improve ceramic finishes, incorporating a specially-formulated glaze with water and oil-repellent properties. On MicroGlaze, water forms droplets, which flow away much more easily – taking away dirt and stains with them. This makes Icera ceramic products more stain resistant, and easier to clean. Select models only.
